ABOUT THE RIDES

The Great American Hot Air Balloon Ride for One Person

First, our crew chief will take you and your friend(s) to the launch site where the beautiful balloon is being inflated. Then, we gently ascend and float between 500 to 1,000 feet wherever the wind takes us. You travel above the treetops and below the clouds for about an hour, covering five to ten miles. On landing, we all celebrate with a champagne or fruit juice toast, (an old French tradition), as the balloon is being rolled up. The whole experience takes about three hours...three "fantastic" hours! (Note: Balloon baskets hold up to four people. Each Interchangeable Certificate is good for one person.)

The Great American Glider Ride for Two People

Our experienced pilot will take your friends high above the earth in our sleek silent glider. They will have an exciting soaring adventure—smooth, quiet, peaceful, beautiful. Spectacular scenics! "The Twin-Tow for Two" is a series of two individual flights for a combined time and altitude of 6,400 feet and about 35 minutes. It is an exciting ride for two, terrific for first-timers, for those who want to take a turn at the controls themselves, while in the air. Another ride, the "Mile High Glider Ride-for-Two Together" goes to 5,280 feet, covers 50 miles and is up for about 35 minutes.

The Great American Tandem Skydiving Ride for One Person

You and your instructor board the jump plane and you climb to between 10,000 and 13,000 feet. Signals are given and you exit the aircraft harnessed to your instructor. The free-fall is a rush and the feeling of flying is breathtaking. Then, the chute is opened and you and your instructor float to earth together. Excitement unlimited!
